EAST POINT.

The signs of autumn now appear we note the changing of the year. On the hill the leaves begin to turn, by the road the summer bushes burn. The golden-rod stands dressed in yellow the fruit on orchard boughs is growing mellow, in cool sequestered places

You might as well have the use of that building you are planning—there is nothing to be gained by waiting. There is no prospect of prices going down for some time after the war is over. Go ahead and let your contracts.

When it comes to the roof you can make a real saving, and get a better roof by specifying

Certain-teed Roofing

CERTAIN-TEED is not cheaper because the quality is lower, but because it is a less expensive roofing to manufacture. It is better, not only because it is cheaper, but also because it is light weight, weather-tight, clean, sanitary, fire-retardant and costs practically nothing to maintain.

It is now recognized as the preferable type of roofing for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is necessary.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire-retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes are the best quality paint materials, ground and mixed with mechanical accuracy. Made for all uses and in all colors. With paint, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.
